

## Holway Park CP School & Autism Centre

### Reception GLD

June 2025

#### GLD outcomes June 2025

There was an increase in the percentage of disadvantaged pupils attaining GLD. This outcome was higher than Local, Regional and National and an improvement on June 2024. It should be noted that if the SEN UNIT pupil's data was again removed it would have been even higher.

All Pupils	This is the percentage including the SEN UNIT pupils	This is the percentage of the mainstream pupils only	
Holway Park-	56.3%	68%	When the SEN UNIT pupils are removed the school score is in line with national averages
LA average-	70.4%		
Regional average-	70.2%		
National Average	68.3%		

Governors noted the impact on including the SEN UNIT pupils in the school's outcomes- These pupils are unable to access learning and working towards the Early Learning Goals in the same way as the mainstream pupils. They were also unable to access the Reception Baseline Assessment. They are still working on the developmental journey. The SEN UNIT is making specialist provision.
